

## **IS THERE A CURE ?**

Hey! x2

Is there a cure?

C-c-c-cure

Hey!

If there's a cure for stupidity

Please hand out the medicine now

### **Verse 1**

Now we know that Russia's cruiser missile works

A perfect display of human destruction

Deadly inventions

Deadly nations

2016 version of hell

### **Chorus 1**

But Aleppo will

Resurrect in gold

So lets just get it right

Before we all grow old

Hey! x6

### **Verse 2**

Calling all innocent and clever people

We must stop these mad machines

Sworn to freedom, we will compete them

No matter who they sent to take us down

All leaders of the world

Come out that illusion

That you can put out fire with gasoline

### **Chorus 2**

But Aleppo will

Resurrect in gold

So let's just get it right

Before we all grow old x2

Is there a cure?

C-c-c-cure x2

### **Bridge 1**

I won the race

I take control

Of this blue balloon

I watch the birds return from space

To confront the human race

To do something about it

### **Chorus 3**

Is there a cure?

Cure

C-c-c-cure

Cure x2

### **Bridge 2**

All you online

Can you spare a dime

You have the power to change the times

Spread your wings

Discover things

You were made to change

The international system

The human race

Oh how they got it wrong

With their abuse of each other

Their collective cover

Their money and their lack of love

### **Chorus 4**

Is there a cure?

Cure x5

Get it out and get a scope

C-c-c-cure

Get it out and get a scope

Is there a cure?

C-c-c-cure

Get it out and get a scope
