

## TWO PEOPLE

### Verse [1]

We're struggling with our freedom  
Don't know why we're here  
It seems we have to be somebody in fear

We came out of hope  
We came out of pain  
The true survivors  
From another plane

### Chorus [1]

Two people trying hard  
To be free together  
Two people facing stuff  
They can't blame  
The weather

### Verse [2]

The hardest to know  
Is who you really are  
And how long you should walk  
Before you talk

### Chorus [2]

Two people trying hard  
To be free together  
Two people facing stuff  
They can't blame the weather

Two people realise  
They can change whatever  
Two people wanna live  
And be in love, forever

Two people wanna try  
To be in love, forever  
Two people, facing stuff  
To be free together

### Bridge [1]

There's no situation  
(Yeah!)  
We won't risk our lives to fix  
Cuz we are the situation  
Extra super-trooper kids  
Bred on milk and honey  
With flowers in our hair  
We are the reformers  
The ones that really care

### Chorus [3]

All people trying hard  
To be free, together  
All people facing stuff  
They can't blame the weather

All people realise  
They can change whatever  
All people wanna live  
And be in love forever

### Outro

(Forever)  
And just feel alive  
(Forever)  
And just feel free  
(Forever)  
Feels like coming home, now  
(Forever)  
Feels like love
