

Quiet Generation

Get power and use it for good
We are the quiet generation
The one that never talks
We are the last rebellion
With supernatural force
With supernatural force

We are the pop up generation
And we're popping now
So wake up fellow beings
It's time to clean your house
We are the why? generation
With our heads above the clouds
We are the hidden counter culture
Your sixties future friends

Yeah!
Everybody is going out of their cage
Yeah!
Everybody is going out of their cage

We are the easy generation
The extraterrestrial biz
We are the last rebellion
With supernatural gifts
We are the quiet generation
But now we are going live
We are the message from the future
Where everything will be alright

We will not tolerate lowerism
We will not tolerate lowerism
There is, however a desire, to get power in order to use it for good
You got power, you got to use it for the good

We are the why generation
We are the why
And we know why we are here
And we know why we are here
We are the pop up generation
The one that have no fear

Free butterflies
So beautiful
Is this a dream

So beautiful
I've seen them fly
So beautiful
In front of you
So beautiful

Okay let us see
Can Robin drive the batmobile
Now start the engine, come on
Now start the engine
We gonna get this right
Come on
We have been training for so long

Can Robin drive the batmobile
Can Robin drive the batmobile
Come on
Will Robin drive the batmobile
Can Robin drive the batmobile
We are the hi-fi generation
So please don't give us low
We wanna put this thing together
And get started on a flow

We will never give in
We will never give in
